

HIGHLIGHTS

From the Office

It seems like it's been a long time coming, and on the other hand I can hardly believe it's June already! What a year this has been. We are so proud of our students as they have persevered through these past few months, and we are also proud of all our Lakeview families for sticking with us through the many changes that have been necessary to keep learning happening. We are hopeful we will have some specific plans to share in the coming weeks, and you will be provided with opportunities to respond and provide feedback and input into helping us develop those plans. I encourage you to keep your eyes open for email coming from Lethbridge School Division 51 with this information and please respond to any survey requests. As always, your perspective is valuable to us, especially during this unusual time.

We are still gathering registration forms so if you have not sent these back to us please do. We need to know who will be in our school so that we can make sure we have adequate teaching and support staff. If you are unsure if your children will be attending Lakeview it would be helpful to provide us with registration forms anyway at this time, and then we can shred them if your plans change. We are needing to have as clear a picture as possible of what our student population will be. We are anticipating a surge in our numbers as the Southbrook development continues to grow throughout the spring, summer, and all next year. We are the boundary school for Southbrook for the 2020-2021 school year, so we must be able to accept those students at any time in the year.

We have some "year-end" activities that will be happening later this month that will include a series of "Neighborhood Parades" as well as our farewell for our grade 5 students. More information will be coming out about this closer to the time. As we prepare for this school year to close, we can't thank you enough for your continuous support through these unprecedented times. Our staff has worked extremely hard to make online learning the best for your child(ren). I hope that you have a fun-filled, safe and relaxing summer. Please have your children continue to read at least 20 minutes a day and play math type games to keep them engaged, this will make a difference in September. We are looking forward to re-uniting with our students as soon as we can! All the best to you and yours,
Ms. Walmsley

2020-2021 Projected Start-up

Wed Aug 19 — School office scheduled to open to the public
Tue Sep 1 — Anticipated first day of school for students in the 2020-2021 school year

NEWS FROM LAKEVIEW'S LEARNING SUPPORT TEACHER Mrs. Lois Van Roon

As we wrap up this year, there are so many things to reflect on. It has been a year of surprise, transition, and new ways of learning. As we stand on the edge of another school year, it is worth taking time to reflect on the ways we have grown in this new learning environment. We have all experienced how to do things differently and it has given us opportunities we may not have had otherwise. I have learned so much in my last four years at Lakeview, and this past year I have experienced the biggest learning curve of all. As I move to Lethbridge Christian School in the fall as the newly appointed vice-principal, I am thankful for my years at Lakeview and the many positive relationships I have made along the way with students, parents, and colleagues. I wish all Lakeview families a wonderful summer and best wishes for the next school year! You have a special place in my heart, Lakeview!
